Portable Mixers

Dito Electrolux BERMIXER B3000
A dynamic tool for your kitchen!

Satisfaction guaranteed!
Multifunctional and easy to handle.
Specifically developed to save you time and money.

Bermixer with stainless steel tube

Unlimited use

- A **variety of foods** such as creams, soups, sauces, vegetable purees, pancake batter and mousses can be prepared with the **cutter-beater attachment**
- The optional **whisk attachment** is ideal for whipping creams, beating egg whites or making mayonnaise
- Its **high versatility** allows a **great variety of recipes** thanks to the innovative electronic speed variation, from 500 to 10000 rpm during operation with full load
- A **special wall support** holds the unit and tools when not in use and incorporates a device for the safe removal of the blades
- **Cord and plug** are supplied as standard

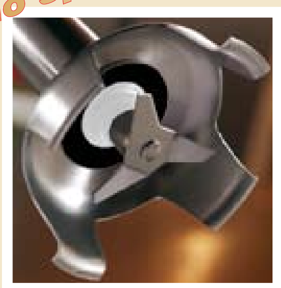

Wall support (supplied as standard)

Safe and secure

- The ***SMART Speed Control*** system guarantees a constant speed regardless of the load consistency and avoids an increase in speed when the tool is not in contact with food resulting in **reduced vibration, less noise** and **less wear**
- A **longer working time** and the ability to **process the thickest foods** are now possible thanks to the new air cooling system which prevents the motor from overheating
- The special lipped design of the blade protection **avoids splashing**
- **Operator safety is assured!** The machine will start only when both buttons are pushed simultaneously
- The **overload alarm indicator** in the control panel will light if the unit is used improperly

No splashing !

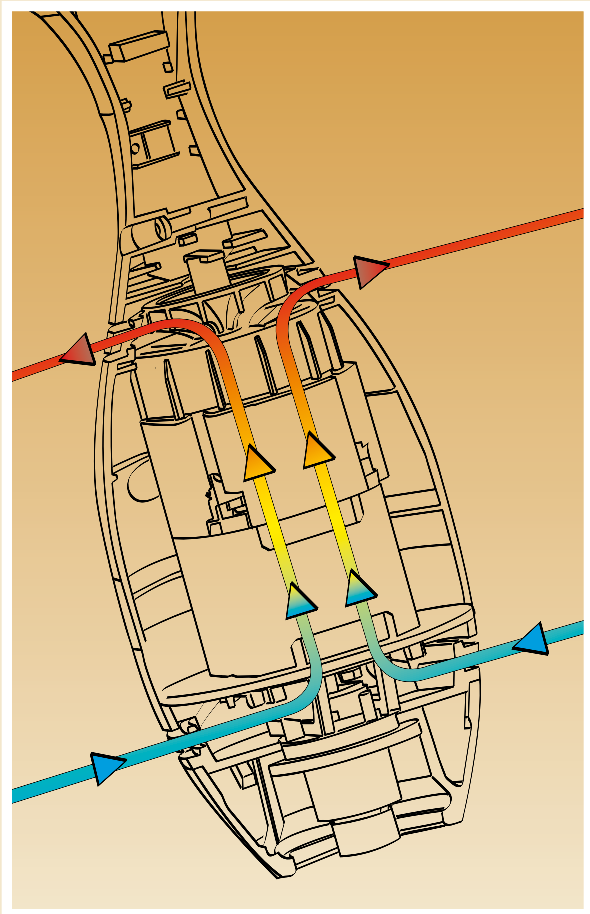

Increased safety !

A wide range of tools

Easy to use

- The **lightweight body** and ergonomic shape of the handle makes it **comfortable to use**
- The **easy control of the speed rotation** is possible thanks to the ergonomic handle, the position of the push buttons and the electronic speed variation. Just a slight press of the thumb on the selector quickly changes the speeds
- The coupler with its **simple fastening system** allows quick connection of the tools to the motor unit

Easy to connect !
